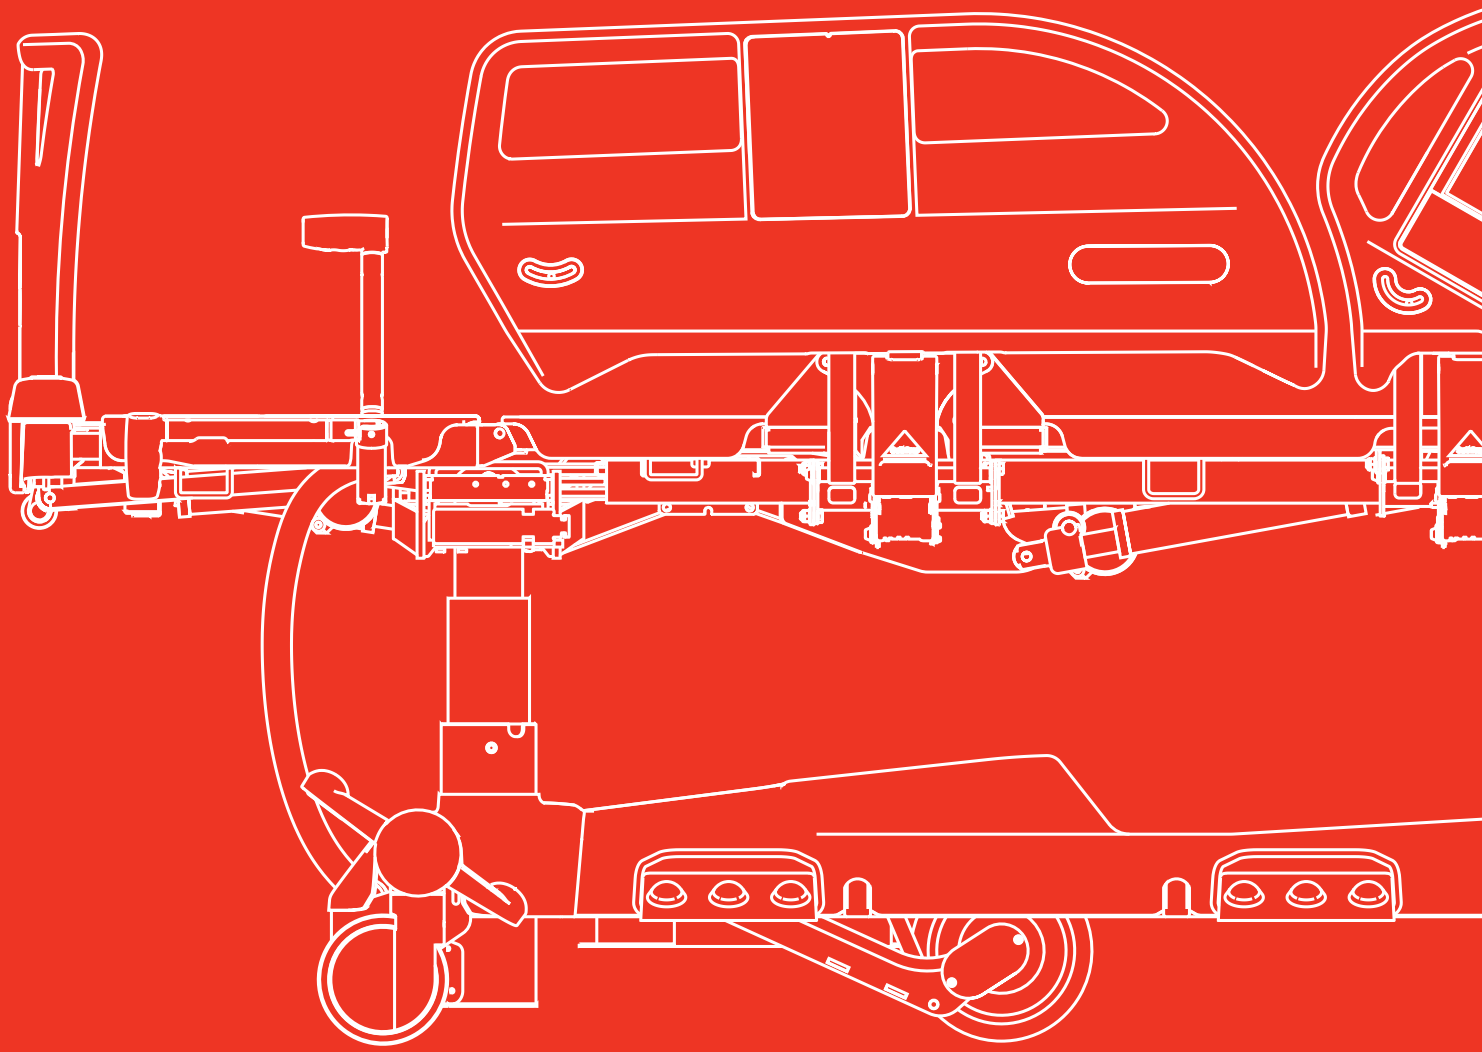
Safety That Speaks for Itself

Advanced Med-Surg Bed

ELEGANZA 5

SAFETY THAT SPEAKS FOR ITSELF

Eleganza 5 med-surg bed is designed to reduce strain, prevent falls, and optimize workflow with advanced technologies, so your team can do what they do best – deliver exceptional care.



REVOLUTIONARY FRAME-BASED LATERAL TILT FOR REDUCED CAREGIVER STRAIN

Safer Patient Handling reduces caregiver strain by 67%, lowering the risk of MSDs.[1]

Easier Patient Transfer requires 33% less physical effort thanks to lateral tilt.[2]

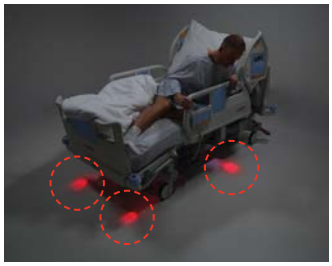
Early Mobilization alone can significantly reduce hospital stays by one day.[3]

Precise Positioning is enabled by a 1° lateral tilt for gentle, precise microshifting.

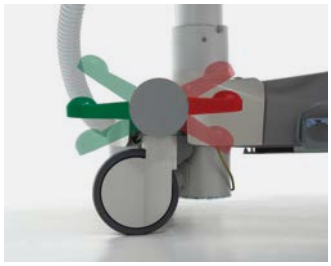
ELEVATING FALLS PREVENTION WITH INTELLIGENT SOLUTIONS

Multizone Bed Exit Alert monitors the patient and notifies staff when a patient tries to leave the bed.

Built-in Voice Guidance reminds the patient to stay in bed.



LED Indicators direct caregivers to the right bed, so they can intervene before a fall happens.



i-Brake® automatically engages to reduce the risk of falls from an unstable bed.

ADVANCED TECHNOLOGIES ELEVATING PATIENT MONITORING AND ASSET TRACKING

SafetyPort collects and visualizes real-time bed and patient data, enhancing safety and efficiency.

SmartTracking facilitates caregivers' daily work by tracking hospital assets or patients.

WiredLess® nurse call enables efficient, immediate communication that helps prioritize care effectively.

TECHNICAL SPECIFICATIONS

Safe Working Load	250 kg / 551 lb
Maximum Patient Weight	185 kg / 407 lb
Average Bed Weight	210 kg / 463 lb
External Dimensions in Standard Bed Position (length × width)	219 cm (86.2 in) × 100 cm (39.4 in)
Trendelenburg/ Reverse Trendelenburg Position	+14° / -14°
Lateral Tilt Adjustment	+15° / -15°
Bed Extension	0 cm (0 in) – 22 cm (8.7 in)

WIDE RANGE OF MATTRESSES

PROTEVO GTE MCM

Self-adjusting air cells for pressure relief and MCM. Alternating pressure therapy can also be enabled.

OPTICARE

Therapeutic mattress designed for optimal immersion and envelopment, with advanced features like MCM for enhanced patient comfort.
