The Hybrid Path to Efficiency

Active and passive systems in one

WHY HYBRID MATTRESS?

Hybrid mattress systems are support surfaces that contain elements of both a passive and an active system.
Hybrid mattresses allow caregivers to easily step up or step down as the patients' risk of developing pressure injuries changes throughout their hospital journey. Its versatility ensures that patients can remain on a single mattress.

HybriMatt contributes to pressure injury prevention, streamlines hospital operations, and offers a variety of mattress options, making it

the Hybrid Path to Efficiency.

HYBRID APPROACH TO PRESSURE INJURY PREVENTION

Active system with 2-cell alternation provides periodic pressure reduction.

Passive system helps to redistribute pressure thanks to a viscoelastic foam layer in the mattress. Active and passive systems together deliever what no single system can.

ENHANCING EFFICIENCY IN HOSPITAL PROCEDURES

Hybrid mattresses simplify daily procedures for caregivers and support flexibility in prevention strategies.

Easy mattress cleaning and inspection thanks to full access to all the components of the mattress.

VERSATILE MATTRESS OPTIONS

Integrated mattress option provides a cohesive solution for the Essenza bed.

Mattress replacement can be placed on any bedframe.

TECHNICAL DETAILS

MODELS		HYBRIMATT 100		HYBRIMATT 200	
Mattress replacement & Integrated solution		Mattress replacement HybriMatt 100	Integrated solution HybriMatt 100 IN	Mattress replacement	Integrated solution HybriMatt 200 IN
					
			Essenza 300 Essenza 400		Essenza 300 Essenza 400
Features	Air Decks	Air+Foam		Air+Foam	
	Foam Layer	4 cm viscoelastic foam		4 cm viscoelastic foam	
		11 cm polyurethane foam		11 cm polyurethanefoam	
	Modes	Alternating Pressure Therapy, Max, Constant Low Pressure		Alternating Pressure Therapy, Constant Low Pressure	
	Cycle timemattress replacement	10, 15, 20, 25 min		12 min	
	Cycle timeintegrated mattress	10 min		10 min	
	Microclimate Maintenance	No		Yes	
Mattress dimension	Mattress replacement	200 × 86 × 15 200 × 90 × 15 208 × 86 × 15		200 × 86 × 15 200 × 90 × 15 208 × 86 × 15	
	Integrated mattress	200 × 86 × 15		200 × 86 × 15	
Additional parameters	Maximum patient weight (kg)	230		230	
	Cover	Microclimatecover, Endurance cover [2]		Microclimatecover, Endurance cover, Zoned cover	
	Zipper	270°, 360° [2]		360°	
	Handles	Yes		Yes	
	Evacuation cover (option)	—		Yes [1]	
	X-ray sleeve (option)	—		Yes	

1) Related to the mattress replacement only. 2) Related to integrated solution only.
